BOWLING GREEN STATE UNIVERSITY

OCT. 5, 1992

Members of the class of 1985 gathered Sept. 26 at the new gazebo located between the Student Recreation Center and the Moore Musical Arts Center. The gazebo was donated as a gift from the class' Senior Challenge pledge program. Joe Gottron (center), an alumnus of the class and a member of the Senior Challenge Executive Committee provided remarks during the dedication ceremony, along with Larry Weiss, director of alumni affairs and associate vice president for University relations.

Flight team heads to NIFA competition

For aerotechnology students, the sky is the classroom

When the sky is crisp and clear and there is not even a hint of a breeze in the air, John Daly knows it is going to be a good day for class.

And when he looks out to see an empty airfield, a sign that all nine planes are in the air, he knows that the students are doing their homework. Here, when the weather is good, the students don't sit in the sun and gaze at the clouds, they soar above them.

Daly joined the University's staff this summer as director of aviation in the aerotechnology program. He oversees an area of study where the students not only hit the books, but also take to the skies as they prepare for careers as pilots or in aviation or maintenance management.

"We have a unique program in that we start our students flying as soon as possible," Daly said. "Many other schools don't get them up in the air until their sophomore or junior years."

It's not necessary for a person to have ever set foot in a plane before majoring in the program. In fact, Daly said many of the freshmen have no previous flying experience. But once they decide this is the field they want to be in, it's time to get serious. The busy four-year program requires a student to complete two of the three tracks of study and participate in at least three cooperative education programs.

"By doing so many co-ops, the student gets out and gets a strong feeling for the aviation field," Daly said. Many of the co-ops are in the area, but the program also has established ones with Lambert International Field in St. Louis, Mo. and another one in St. Myers, Fla.

Despite the hard times that have fallen on the airline business, Daly said it is a good time to be going into aviation. "Right

now there is a surplus of pilots but in about four years there's going to be a real need," he said. World events also are having an effect on the field. With the opening up of Soviet airspace, plans for many more international airports are underway.

Although many people find flying exciting or exhilarating, it also can be life-threatening when something goes wrong. Daly said everything in the program's training process is geared toward safety. "A student never does anything new until he has worked through it several times with the instructors," he said.

Students often practice first on one of the two flight simulators. Instructors stress that real life is not like the movie "Top Gun" and risks are not to be taken. "Right from the beginning students are told to make decisions weighing on the side of safety, even if it costs more money," Daly said. "We've only had one accident out here since the program began (in 1974) and that was due to a mechanical failure."

Fifteen students in the program will get a chance to test their aviation skills in an upcoming annual National Intercollegiate Flying Association competition to be held Oct. 14-17 in Traverse City, Mich. Members of the University's flight team include Neil Chaney, Chad Noblit, Carey Malatok, Gary Morris, Becky Mohamed, Brian Pflieger, Brian Williston, Bryan Almaguer, Travis Brittain, Mike Bramble, Mark Wagner, Jay Raines, Chad Wright, John Lucas and Scott Koehler. Steve Lintzenich is the faculty adviser.

Competing against flight teams from Ohio State University, Kent State University, Ohio University, Northern Michigan University, Central Michigan University and Western Michigan

Demographers laud Rao's new technique book

The title, *Advanced Techniques of Population Analysis*, may not sound exactly titillating, but the book currently is receiving wide attention among demography scholars.

Co-written by Dr. K. Vaninadha Rao, sociology, and Dr. Shiva S. Halli of the University of Manitoba, Canada, the book was published earlier this year by Planum Press in New York. It is being touted as the most comprehensive collection of up-to-date techniques developed in population-related research. Already it has become Planum Press's most popular book, Rao said.

K.V. Rao

In fact, when Rao went to a demography conference in the Netherlands in July, many of the participants were discussing the book. "I was surprised that people already know about it," he said.

Demography is the study of populations and their characteristics. Population data analysis requires various demographic methods and statistical techniques depending on the type of study a researcher is conducting. According to Rao, many methods and techniques have developed, but have never appeared together in one text. Through their book, the authors attempted to bring together the most recent developments in statistical modeling and their applications in population studies. They also provided an easy-to-follow application, discussion of available software and interpretation of results obtained from software packages.

"Generally, most textbooks on this topic talk about techniques, but don't provide an example or tool," Rao said. "Also, there are many specialized books on this topic, but never has all the information been in one place. Our book was written in response to these two problems."

One of the problems with any technical book is there often is too much math. Rao said in writing the book they concentrated on the applications of techniques and not the math. "We didn't want to scare anyone away from the book by using a lot of math, so we emphasized application interpretation and the writing up of results," he said.

Data used in population research is becoming more complicated, Rao said.

33 faculty bid the University good-bye as they make retirement plans

Thirty-three faculty members have retired during the months of June, July, August and September.

Faculty who retired in June are Dr. Patrick Alston, history; Edwin Betts, music performance studies; Dr. Jane Forsyth, geology; Dr. Kirill Hartman, German, Russian and East Asian languages; Dr. Harold Johnson, psychology; Dr. Wendell Jones, music; David Melle, music performance studies; Dr. Karl Schurr, biology; Dr. Bernard Sternsher, history; Theresa Milne, educational curriculum and instruction; Richard Kepple, applied sciences, Firelands College; and Dr. Ina Temple, health, physical education and recreation.

Alston, a professor of history, is a specialist in World War II history and has provided local insight to recent political events in the former Soviet Union. He has worked at the University since 1971.

Betts, a professor of performance studies and coordinator of brass and percussion, is a founding member of the Bowling Green Brass Quintet. He has served the University for 30 years.

Forsyth, a professor of geology, has been at the University since 1965. She is widely known for her contributions to the knowledge about the geology of Ohio, glacial and environmental geology and the geological setting for Ohio plants and animals.

Hartman, an assistant professor, joined the University in 1964.

Johnson has been on the faculty since 1966. He specializes in psychophysiology, personality and clinical psychology. Much of his research has been on fear and its physical and psychological effects.

Jones, a professor of music performance studies, has been at the University for 25 years. He has served as the director of the Bowling Green Percussion Ensemble and his performance career includes membership in the Toledo Symphony Orchestra.

Kepple, an assistant professor of computer-assisted manufacturing technology, joined the Firelands College staff in 1984.

Melle is a professor of music performance studies. He joined the University in 1967 and is a member of Venti Da Camera, the faculty woodwind quintet,

and Faculty Jazz Quartet. He has served as director of Bowling Green Jazz Lab Band.

Milne, an instructor, started her BGSU career in 1971. She has been active on Faculty Senate and its committees, and also is a member of NETWORK, a national social justice lobbying group, and Groundwork, a regional group dedicated to issues of justice and peace.

Schurr has been at the University since 1962. A professor, he specializes in aquatic biology, parasitology, toxicology, water resources and biological control.

Sternsher has been a professor at BGSU since 1969. Specializing in recent American history and American historiography, he is known for his books on the Great Depression era.

Temple, an associate professor, has been at the University for 26 years. She served as the chair of the physical education professional division from 1979-85 and specializes in motor learning and development as well as evaluation and assessment in physical education.

Faculty who retired in July are Dr. Don Bright, business education; Dr. Ray Browne, popular culture; Dr. Douglas Daye, philosophy; Dr. Harold Fisher, journalism; Dr. M. Lee Goddard, business education; Dr. Sue Hager, health, physical education and recreation; Dr. William Hann, biology; Dr. Herbert Hollister, mathematics; Dr. Ronald Hunady, management; Dr. Norman Chambers, special education; Dr. Donald Kausch, psychology; Dr. Angela Lindley, libraries and learning resources; Dr. Marilyn Madden, romance languages; Dr. Charles Mott, applied statistics and operations research; Dr. Philip O'Connor, English; and Dr. Wallace Pretzer, English.

Faculty who retired in August are Dr. Benita Chambers, educational curriculum and instruction; Dr. John Hiltner, gerontology and geography; Dr. Sylvia Huntley, educational curriculum and instruction; Dr. Charlotte Scherer, educational curriculum and instruction; and Dr. Terry Parsons, Student Recreation Center.

Bright has been with the University for 24 years. A teacher educator in vocational business and office education, he has been editor of the journal *Ohio Business Teacher*. He received the

American Vocational Association's Award of Merit in the Business Education Division for 1990.

Browne, chair and Distinguished University Professor of Popular Culture, founded that department in 1973. He came to the University 25 years ago and is credited as being the first to propose the serious study of popular culture.

Benita Chambers, an associate professor, is a reading expert and has served the University since 1972. She specializes in the development of literacy and children's literature.

Norman Chambers, an associate professor and director of the school psychology program, has served the University for 23 years.

Daye, a professor, has been at the University for 23 years. He has been active in the promotion of international study and once served as the director of the Center for International Programs.

Fisher, professor and chair of the journalism department, has been at the University for 20 years. He gained expertise in international communication from living in Africa and the near East for many years.

Goddard has served the University since 1962 and is currently a professor. He has been an associate of the Danforth Foundation, which promotes faculty-student relationships.

Hager, an assistant professor and director of intramurals, has been at the University for 25 years. She has been active in the development of the women's sports programs.

Hann, an associate professor, came to the University in 1967. His field of study includes virus and bacteria relationships and host resistance mechanisms.

Hiltner is a professor and director of gerontology. He served as associate dean of the College of Health and Human Services for 1991-92 and has served BGSU since 1958. He has earned several awards, the most recent being the Ohio Gerontology Educator of the Year by the Ohio Network of Education Consultants in the Field of Aging.

Hollister, a professor, has served the University for 27 years. His areas of expertise include mathematics and real estate. He is a member of the faculty barbershop quartet The Logarithms.

Hunady, an associate professor, has served the University since 1969. He specializes in managerial development, organizational leadership and motivation.

Huntley, an assistant professor, joined the University's staff in 1969. Her area of study often focuses on student teaching and she helped develop a student teaching handbook.

Kausch, a professor and director of the Psychological Services Center, has worked at the University for 24 years. He developed the community-oriented center to provide training for graduate students.

Lindley, joined the University in 1968. She is an associate professor in libraries and learning resources.

Madden is an associate professor of romance languages and began working on campus in 1968.

Mott, an associate professor, has served the University for 26 years. His research field includes public finance, especially state and local taxes and expenditures.

O'Connor, a Distinguished Research Professor, has served the University since 1967. He was named writer-in-residence from 1980-83 and is known for his works *Stealing Home*, *Defending Civilization*, *Finding Brendan* and *Old Morals*, *Small Continents*, *Darker Times*.

Parsons has worked at the University since 1970. He was director of the Student Recreation Center and previously served as chair of the health, physical education and recreation department and assistant to the dean.

Pretzer, a professor, has worked at the University since 1963. He specializes in teaching English as a foreign language and the history of the English language.

Scherer, an associate professor, began teaching on campus in 1971. She has served as the University's director of the Clinical and Computer Laboratory. Her areas of study include computer education and teacher education for computer usage.

Retiring in September was Dr. Michael Mott, English. A professor, Mott has served the University for 12 years. He is the official biographer of Trappist monk Thomas Merton and was nominated for a Pulitzer Prize for *The Seven Mountains of Thomas Merton*, the biography of the monk.

Applications available for China exchange program

If China has always mystified you; if the thought of walking along the Great Wall intrigues you; or if meeting and working with an entire new community of people sounds interesting, going to teach at Xi'an Foreign Languages University in Xi'an, China, is for you.

Applications are being solicited for BGSU's annual exchange program with XFLU, a program in which more than 20 representatives of the University community — faculty, graduate students and staff members — have participated. A formal application for the exchange requires only a brief letter and vita which should be sent to the coordinator of the program, Dr. Lester E. Barber, president's office, no later than Nov. 1. General expressions of interest and questions also are welcome. For more information, contact Barber at 372-2214.

Ordinarily the exchange requires a commitment for a full academic year. Under special circumstances, however, one of the two or three positions available each year may be filled with a one-semester appointment. The one-semester arrangement is intended for tenured and probationary faculty candidates.

The exchange offers the opportunity to teach Chinese students studying foreign languages and cultures as their college majors. By living in the school's foreign teacher compound, participants also meet other teachers from around the world. There are numerous chances to travel through China and Xi'an itself has a rich history as one of the country's ancient capitals. The city of four million is best known for its Terra Cotta Army, an archeological find of 7,000 lifesize warriors buried 2,000 years ago to guard the tomb of one of China's emperors.

All teachers who have a generalist concern for American thought and culture could be appropriate candidates for the exchange. Most exchange arrangements have been with XFLU's English department. However, placement may be possible in the school's tourism department.

Potential faculty candidates who are eligible for faculty improvement leaves may wish to coordinate their applications.

Regulations set for revising stationery

Due to U.S. Postal Services regulations, a revision is being made in the design of the standard University business-size envelope. The change will take place so that envelopes are compatible with new postal scanning equipment.

Beginning February 1993, the University will endorse revised stationery, including letterheads, envelopes and business cards. The new stationery will carry the traditional round University seal. An ad hoc logo committee surveyed the University community last year and found that most people favor the seal over the modern shield which is currently on stationery.

Guidelines concerning the production of stationery by individual units and the use of the various logos are available from the Office of Public Relations. The change is on the agenda of the Oct. 8 Board of Trustees meeting.

Dirt went flying at groundbreaking ceremonies Sept. 29 for the University's new high-technology classroom building. The \$13.5 million facility, to be located off Ridge Street, immediately north of the Business Administration Building, is expected to ease the classroom crunch on campus. It also will provide students with one of the most technologically advanced classroom settings in the state thanks to its satellite communications capabilities. Participating in the ceremonies were (from left) Eloise Clark, vice president for academic affairs; John Mahaney, president of the Board of Trustees; President Olscamp and Patrick Fitzgerald, general manager of WBGU-TV.

Hispanic Heritage Month to be observed with a variety of events

The University will be alive with the music, dance and art of Spain and Latin America during October, which has been designated Hispanic Heritage Month.

Sponsored by the Office of Multicultural Affairs and La Union de Estudiantes Latinos, an Hispanic student organization, all of the events are open to the public and, unless otherwise noted, all are free.

Two art exhibits will open in October. Adrian Tio Diaz, art, will exhibit his works in a display entitled "Masks of Fire." The works will be displayed from 8 a.m. to 5 p.m. weekdays in the Kennedy Green Room of the Moore Musical Arts Center. It will run through Oct. 16.

The second exhibit, entitled "Centered Margins: Contemporary Art of the Americas Toward a Post-Colonial Culture," will be displayed from 9 a.m. to 4:30 p.m. weekdays and from 2-5 p.m. on Sundays in the Dorothy Uber Bryan Gallery of the Fine Arts Center. Artists who will display their work include Paul Sierra, Micaela Amato and Luis Cruz Azaceta. It will run through Nov. 1.

On Monday (Oct. 5), La Union will hold an open house from 11 a.m.-12:30 p.m. in 315B Student Services Building. Cultural displays and an entertainment program are planned.

The first of four films for the month, "The Mambo Kings" will be shown at 8 p.m. Wednesday (Oct. 7) in the Gish Film Theater, Hanna Hall.

Homecoming is Saturday (Oct. 10) and La Union will be holding a special brunch for Hispanic alumni beginning at 11 a.m. in the Bishop Room of the Falcon Plaza Motel, 1450 E. Wooster St.

"Should Columbus Day be Celebrated?" is the topic of a panel discussion planned for 7 p.m. Oct. 12 in the Community Suite of the Union. Panel members will include Lorna Gonsalves-Pinto, ethnic studies; Maurice Tate, vice president of the Black Student

Union; Ofir Sisco, a reading specialist in the University's Study Skills Center; and Christopher Smitherman, a graduate student in higher education and student affairs.

On Oct. 14, the film "The Old Gringo," will be shown at 8 p.m. in the Gish Film Theater, Hanna Hall.

In addition, La Rondalla Grupo Puerto Rico, a traditional vocal group, and El Grupo Folklorico Andanzas Mexicanas, a traditional Mexican dance troupe, will perform.

Health will be the topic for two lectures on Oct. 20 and 22. Both lectures will begin at 7 p.m. in the Ohio Suite of the Union. On Oct. 20, Olga Alvarez, the Hispanic health consultant for the AIDS Health Unit in Columbus, will discuss "Sex and Transmitted Diseases." Then on Oct. 22, Ramon Perez, adviser and coordinator of the Youth Prevention Program of the Adelante Program of Toledo, will examine "Substance Abuse."

The film "The Salt of the Earth" will be shown at 8 p.m. Oct. 21 in the Gish Film Theater, Hanna Hall.

On Oct. 23, the Miguel Omelas Scholarship Dance will be held at the Masonic Auditorium, 4645 Heatherdowns Blvd., Toledo. Beginning at 8 p.m., the dance will feature the music of Los Aztecas de Detroit. Tickets for the dance are \$12 and can be reserved by contacting the Office of Multicultural Affairs at 372-2642.

A fashion show of traditional dress will be held at 7:30 p.m. Oct. 27 in the Lenhart Grand Ballroom of the University Union. The next night, Oct. 28, the film "American Me" will be shown at 8 p.m. in 1007 Business Administration Building.

The last event of the month will be a literature recital by Leonardo Flores, a graduate student in English. Flores, who was born in Puerto Rico, will read from his works beginning at 1:30 p.m. in Prout Chapel.

Off-Campus Student Center to celebrate

In celebration of its 25th anniversary, the Hazel H. Smith Off-Campus Student Center is planning a full day of activities for students, alumni and families on Saturday (Oct. 10).

Anniversary activities will include an open house, an art show, book fair, original readings, potluck supper, and a scholarship and recognition program.

The celebration will begin with an 11 a.m. open house and art show. After the football game, an international potluck dinner will be served at 4:30 p.m. The World Student Association will provide the international dishes and those planning to attend are encouraged to bring a non-meat dish to share.

Past officers of the Commuter Off-Campus Organization as well as past and current employees of the center will be recognized and Coleen Smith Palmer, daughter of the center's founder, Hazel H. Smith, will present the \$300 Hazel Smith Scholarship to a current University student.

Following the ceremony, creative writing students as well as interested alumni and faculty will read original works throughout the evening.

One goal of the anniversary celebration is to create a record of events and activities in which the center has been involved over the past quarter century, Witschi said. Poster boards commemorating different eras at the University will be hung throughout the main lounge for students to sign and alumni will be invited to write their memories of experiences and activities that took place at the center.

Alumni and students are invited to participate in the readings and to submit their works to the juried art show. Art pieces must be brought to the Off-Campus Student Center by noon

Friday (Oct. 9).

For more information about the silver anniversary celebration, contact Witschi at 372-2573.

Ticket policy to be implemented at Memorial Hall graduations

To ensure that a student's closest relatives are able to watch him or her graduate, University officials have instituted a ticket policy for fall graduation ceremonies held in Memorial Hall.

Under the new policy every graduate attending commencement exercises will receive four tickets which can be used by relatives and friends for admission to the ceremonies. This year's graduation will begin at 10 a.m. December 19.

Vice President for University Relations Dr. Phillip R. Mason said that in recent years the lack of guest seating in Memorial Hall has become a serious problem and that his office has received a number of complaints from both students and parents.

"While we view commencement as one of the most important University events and one that everyone should be invited to attend, we simply can no longer ignore the overcrowding in Anderson Arena. We hope that this system will be fair to everyone," he added.

Any remaining tickets will be distributed to the public at the Memorial Hall ticket office the morning of graduation.

With the way seats are arranged in Anderson Arena for a graduation, approximately 4,500 tickets will be available.

AEROTECHNOLOGY

From the front

University, the students will be tested on spot landings, navigation skills, message drops and a variety of ground events. They also will be vying for the coveted Safety Award which is presented to the person who displays the most professionalism in the care of his or her aircraft and toward safety.

Neil Chaney, president of the flying team and a coach, said the team has complete responsibility in preparing and planning for the competition. They

schedule their own practices on Sundays and have made all the arrangements to stay in Traverse City for the week.

"I'm really proud of the way the students handle this," Daly said. "They are shouldering a lot of responsibility — here's 15 students taking three aircraft to another state and competing. They bear the brunt of the expense and take it all very seriously. The emphasis is on flying professionally and not just going off somewhere to have a good time."

RAO BOOK

From the front

because researchers want to know more about the people in the population they are studying. Demographers are now looking at many different aspects of a population, such as fertility, mortality, migration, nuptiality, family and household relationships and labor force participation. "The questions we are asking are becoming more detailed so we have to use more sophisticated techniques to answer them," Rao said.

The most difficult part in preparing the book was gathering chart and graph information. Rao said all of the graphics were set on computers at BGSU and graduate students spent hours typesetting mathematical formulas and cross-checking references. The authors even developed some general computer programs to be used with various sections of the book.

Rao has been studying population statistics for the past 12 years and a part of the book is actually based on his dissertation. Halli formerly was his senior adviser at the University of Western Ontario where Rao received his doctorate. Rao did his post-doctorate training at Princeton University on a Notestein fellowship in the Office of Population Research. He has a master's degree in statistics from a university in India, and an industrial location and development certificate in demography from a Belgian institute. He also received a certificate in population studies from the International Institute for Population Studies in Bombay, India.

Rao, who joined the University in 1988, said his next book on population forecasting is expected to be completed in 1994.

Jenkins to be honored with alumni award

Theodore Jenkins of Oregon, Ohio, a 1954 BGSU graduate, is the 1992 recipient of the University's Alumni Service Award.

The award, which is given annually to a Bowling Green graduate who has demonstrated continued and outstanding support to the Alumni Association and the University, will be presented at the Homecoming game Saturday (Oct. 10) at Doyt L. Perry Stadium. Jenkins is the 31st recipient of the award.

Jenkins recently retired after 35 years with Libbey-Owens-Ford Company in Toledo. He was director of human resources administration at the time of his retirement and has been involved with Bowling Green's Alumni Association and the University for many years.

In addition to being president of the alumni board of trustees, he served the board as secretary, and was chair of the association's long-range planning committee and chair of the awards

committee. Jenkins is also a charter member of the University's Alumni Association Endowment Society and is a member of the BGSU Presidents Club and the Falcon Club. He is also on the transcript advisory committee for the Office of Registration and Records and is on the BGSU Foundation Board.

A retired U.S. Marine Corps colonel, Jenkins has remained active in community affairs. A trustee for Mercy Hospital in Toledo, he was selected as the "Outstanding Citizen" in Oregon in 1979. He is also involved in the Oregon Schools, in church activities, is a trustee for the YMCA and the United Way of Greater Toledo and is a trustee of the First Interhealth Network and the Family Health Plan.

Parade route set

The University will observe its 72nd homecoming Oct. 9-11 with a variety of events, including the traditional parade. The parade will begin at 10 a.m. Saturday (Oct. 10) at the Wood County Courthouse, travel east on Court St., north on Thurston and east on Ridge St. to the Ice Arena.

See 'Comedy of Errors'

The University Theatre's first Elsewhere production of the year is William Shakespeare's ingeniously funny play of mistaken identity, "The Comedy of Errors."

Bowling Green's production of "The Comedy of Errors" will be presented at 8 p.m. Oct. 14-17 and at 2 p.m. Oct. 17 in 411 South Hall.

The production is being directed by Dr. Norman J. Myers, theatre.

As an Elsewhere production, the play is mounted in a small room with minimal scenery, lighting and costumes, in order to maximize the focus on the acting of the play itself.

General admission tickets are \$2 each and are available only at the door. Seating is limited.

FOR SALE

Internal auditing has for sale to any University department a CICS-ready IBM PC model 3270 in excellent condition. The system has a color monitor, 640 K of RAM, a 32Meg hard drive, one 5.25-inch floppy drive, extended keyboard and an Epson NLQ 24 pin printer, model LQ-850. The system comes complete with Multimate Advantage word processor, Lotus 1-2-3, DOS and PC File Plus database. The price is \$750, but is open to offers. Contact internal auditing at 372-9940 or see the unit at 913 Administration Building.

Institutional studies/academic affairs has for sale to any department an IBM Quietwriter wide carriage printer at an excellent price. Also, an IBM PC dual floppy drive system with 640K of RAM, a monochrome monitor and a standard keyboard is available. For more information, call 372-2941 or 372-2682.

The Turtle Island String Quartet, along with Dr. Billy Taylor and his trio, will open this year's Festival Series at 8 p.m. Friday (Oct. 9) in Kobacker Hall of the Moore Musical Arts Center. GTE is sponsoring the performance, which is dedicated to the memory of northwest Ohioan Lenore Kobacker, who was known for her generosity and interest in the arts. The quartet describes its music as "American Vernacular" which is a hybrid of jazz, blues, folk, classical and bluegrass.

Get ready to dance

Get out your dancing shoes because the sixth annual Harvest Moon Dance will be held at 8 p.m. Oct. 17 in the Lenhart Grand Ballroom of the University Union.

Those attending will dance to the sounds of the Johnny Knorr Orchestra. Light hors d'oeuvres will be served in the ballroom which will be festooned with fall flowers, foliage and pumpkins.

Tickets are \$15 a couple. General admission tickets may be purchased through Oct. 9, depending on availability.

For more information or to purchase tickets, call the Office of Continuing Education, International and Summer Programs at 372-8181.

Cotrell retires from BGSU

Linda Cotrell, a classified staff employee at the University since 1967, retired Sept. 1. At the time of her retirement, she was in residential services as a clerk in Offenbauer Towers. However, also during her career at the University she has worked in the architect's office, the payroll office and housing.

Linda Cotrell

CLASSIFIED EMPLOYMENT OPPORTUNITIES

New vacancies

Posting expiration date for employees to apply: Noon, Friday, Oct. 9.

10-9-1 Vehicle Operator 1
Pay range 4
Parking and traffic
Academic year, part-time

FACULTY/STAFF POSITIONS

The following administrative staff position is available:

Television Services: Coordinator of early childhood development (grant-funded). Contact Sam Ramirez (Search M-043) at 372-2228. Deadline: Oct. 9.

DATEBOOK

Monday, Oct. 5

International Film Series, "Solaris," (USSR, 1972) 8 p.m., Gish Film Theater.

Exhibit, "Masks of Fire," works by Adrain Tio Diaz, School of Art faculty member, Kennedy Green Room, Moore Musical Arts Center. Free. On display through Oct. 16.

Exhibit, "Centered Margins: Contemporary Art of the Americas Toward a Post-Colonial Culture," Dorothy Uber Bryan Gallery, Fine Arts Center. Free. On display through Nov. 1.

Exhibit, Rose Marie P. Strippoli will be showing her first one-person show of enamels and watercolors, Firelands Gallery. On display through Dec. 1.

Tuesday, Oct. 6

UCS Fall Seminar, "Intro to DOS 4.0," (IBM) 9-11 a.m., 120 College Park. Hands on. To register, call 372-2102.

People for Racial Justice Meeting, 10-11:30 a.m., Taft Room, Union.

Faculty Senate, 2:30 p.m., Assembly Room, McFall Center.

International Film Series, "Juliet of the Spirits," (Italy, 1965) 8 p.m., Gish Film Theater. Free.

Wednesday, Oct. 7

UCS Fall Seminar, "Getting Started on the Mac," 9-11 a.m., 248B Technology. Hands on. To register, call 372-2102.

Midweek Prayer, ecumenical event, sponsored by United Campus Ministries, noon-12:30 p.m., Capital Room, Union. All welcome.

Open Forum, with President Olscamp, noon-1 p.m., Chart Room, McFall Center.

Soccer, vs. Marquette, 4 p.m., Cochrane Field.

Hispanic Heritage Month, film, "The Mambo Kings," 8 p.m., Gish Film Theater. Free.

Thursday, Oct. 8

Philosophy Lecture, Christopher Morris, philosophy, will present "Against Sovereignty," 11-1 p.m., 301 Shatzel Hall.

Library Computer Demonstrations, "SilverPlatter databases: ERIC, PsycLit, sociofile, MEDLINE, Monthly Catalog of U.S. Government Publications," 3:30-5 p.m., Conference Room, Jerome Library. For more

information and reservations, call 372-2362.

Snake Dance and Pep Rally, 6 p.m.,

University Union.

Theatre Production, "Emperor Henry IV," 8 p.m., Eva Marie Saint Theatre. For tickets call 372-2719.

Friday, Oct. 9
